

*This professional learning opportunity will focus on social emotional behavioral learning (SEBL) within a multi-tiered system of support. Workshop components will include an overview of SEBL, a targeted emphasis on adult SEBL, the specific systematic development of culturally responsive student SEBL within a multi-tiered framework, and an intentional process for continuous improvement. Join us for an opportunity that will emphasize the use of shared leadership and data-based decision-making through the development of infrastructure and building capacity of educators around SEBL.*

## **SEBL For All**
